

Open call!

Submissions

start: September 1st
end: December 30th

2023

'Open Innovation Test Bed (OITB) with an ultimate goal to support and help small high-tech firms to scale up and cope with the continuous rising of technological complexity by translation of research results into innovations.

Through its **Single-Entry-Point** the necessary upgraded infrastructures and tools will be offered to test, validate and upscale new technological solutions.'

what we offer

- **70% of the costs will be covered by iclimabuilt** and the rest (30%) will be covered by the applicant.
- Each proposal will receive funding ranging from **€ 50,000 to € 150,000** per project. The **total foreseen budget is € 1,15 M** which will be provided to 10-12 proposals.
- The project can last for a maximum of **9 to 10 months**.
